

RockRidge Abrasives

Supreme Green Film Disc Information Guide

RockRidge® Abrasives is pleased to announce a new sanding disc to our product mix. Supreme Green Film provides another option for surface prep, finishing, and polishing applications.

The Supreme Green Film is Aluminum Oxide, with P-Graded grain, ranging from 60 to 1200 grit. The disc features an open coat, with stearate, to reduce loading from softer material. The durable, tear-resistant film backing provides a superior finish and longer product life. Supreme Green Film can be used in dry and wet applications.

Supreme Green Film Sanding Discs- 5 inch. Available in PSA or Hook & Loop attachment.

Specifications:

- **60-1200 grit - PSA or Hook & Loop (Velcro) Backing**
- **Open Coat, Stearated**
- **Outstanding Cutting Performance**
- **Longer Abrasion Time and Durability with Anti-Clogging Technology**
- **Better Uniform Thickness on the Sanding Surface when Compared to Paper Discs**
- **The Uniform Thickness is Critical for Fine Sanding**
- **The Film Backing will not Warp**

5" Film Discs	Hook & Loop Backing	PSA Backing		Box Quantity	Case Quantity
Grit	Part Number	Part Number			
60	RRC-15060	RRC-25060		50	1000
